OUR UNIQUE PRIVATE INSURANCE STRUCTURE

1. A business pays a premium to an insurance carrier and receives a policy.
2. The insurance company binds the risks and transfers all of the risk of claim and premium to a reinsurance company.
3. In the event of a claim, the insurance company looks to the reinsurance company to fund 100% of the claim.
4. Premiums are invested and end of year surplus is saved for future claims or returned to bond investors via an insurance linked security.
